ANNUAL REPORT FROM THE BUREAU OF COMMUNICATIONS — 1969 (CONTINUED)

Total Teletype services handled by this Bureau is 165,705 down from 1968 total of 177,038. This year's lower teletype figure results from the installation of other terminals in the building which resulted in the traffic being sent directly to them rather than being routed through this Bureau.

** Computer Queries totals not counted in previous years. Inclusion of this total in the annual report is made necessary due to the greatly increased usage as reflected by its total.

TELEPHONE OPERATORS SECTION

Summary of Activity — 1969

The following figures were compiled by this office using as a base actual time test methods by the Pacific Telephone Company. The time tests show each operator handles a minimum of three calls a minute.

In addition to eight tie-lines, four call box connections and five lines for emergency use only, there are one hundred and fourteen incoming trunk lines on the Hall of Justice Switchboard. Calls are answered on these lines for the following agencies:

<u>Agency</u>	<u>Number of Personnel</u>	<u>Total Calls Daily Average</u>
Police	2,281	4,890
District Attorney	96	1,790
Adult Probation	91	1,234
Court System	Not Available	970
Public Defender	38	247
Emergency Hospitals	75	240
	Total	9,371

Total Calls, 1969, 2,969,980.

SUMMARY OF ACTIVITY-1969

Crime Laboratory

During 1969, the Crime Laboratory of the San Francisco Police Department collected or received evidence in 11,762 cases, including 7,950 scenes processed (stripped and recovered automobiles are considered as crime scenes processed for statistical purposes) and 3,812 narcotic cases.

The attached tabulation indicates the types of examinations which were conducted.

The fourteen members of the laboratory staff made 672 court appearances in Municipal Court, Superior Court, Federal Court, before the Grand Jury and at Coroner's inquests. Although no detailed statistics have been kept, the number of cases in which testimony has been stipulated appears to be increasing and guilty pleas have been obtained in a number of cases where laboratory findings have produced conclusive evidence implicating the defendant.

The latent print section continues to process prints from crime scenes and legible latent prints were obtained in better than a half of the cases investigated. 340 fingerprint and palmprint identifications were recorded during 1969. This does not include the identification of elimination prints made by persons who legitimately handled objects at crime scenes. Searching the Five Finger and Palm Print file resulted in 14 identifications of suspects where no named suspect had been submitted. The number of identifications in this category has resulted in clearing of a much larger number of cases as the suspect is often connected with or admits to other offenses in addition to those from which latent prints were obtained.

The laboratory staff assisted in the instruction of academy classes, involving some twenty-four hours of lectures and demonstrations for recruit classes. Additional sessions of one hour each for three groups of supervising sergeants were conducted in the handling of physical evidence.

Training sessions were held in the operation of the Breathalyzer for personnel of the California Highway Patrol and for members of the Traffic Bureau. Routine maintenance of Breathalyzer equipment has been continued at three locations (Central Emergency Hospital, Park Emergency Hospital and the Traffic Bureau in the Hall of Justice).

The case load of the laboratory continues to increase as physical evidence is sought in more and more cases. The reliance on physical evidence is increasing as the adherence to recent court decisions becomes mandatory. This coverage is difficult to maintain with the available laboratory staff. The results of the overburdened personnel is evidenced by the slight decrease in the number of fingerprint identifications, for instance, as the time for follow-up work is curtailed. The investigating inspectors and the deputy district attorneys handling the prosecution cases are calling for more and more use of physical evidence.

Numerous visitors from San Francisco, as well as from other cities and foreign countries have been shown through the Crime Laboratory. Programs have been conducted for foreign visitors and students interested in the field of criminalistics in cooperation with the State Department Foreign Aid program.

Cooperation with the various details and personnel in the field continues and is probably a major factor involved in the sustained case load of the laboratory. The assignment of recently trained recruits to street duty and the orientation given in the in-service program assists in alerting the officer on the street to the use of physical evidence.

Cooperation from the Bureau of Identification and from the Photograph Bureau has been excellent and is a necessary adjunct to laboratory facilities.

Participation in seminars of the California Association of Criminalists and the American Academy of Forensic Sciences by the criminologist and the assistant criminalists has kept the department abreast of new methods and ideas in the criminalistic field.

SUMMARY OF ACTIVITY — 1968

Bureau of Personnel and Training

Recruiting

The staff of the Personnel Bureau has attempted to increase and update its recruiting activity. Each college and university in the Bay Area was personally contacted and all other colleges and universities throughout the State of California were contacted and sent recruiting material. Contact has been made with all newspapers, radio and television stations and we have received good cooperation from them. The various Armed Services installations were also contacted and visited.

Liaison with Civil Service Commission

Two Captains of Police and one member of the Bureau of Personnel and Training have participated along with members of the Civil Service Commission staff on each oral board which has been established to appraise candidates for the position of patrolman. Assistance has also been rendered to the Civil Service Commission on matters of mutual interest.

Background Investigations

The Academy staff investigated the background of all candidates for employment with this department and also conducted such investigations as requested by a number of law enforcement agencies whose applicants resided in this area. Background investigations have been adjusted to comply with the recommendations of the Commission on Police Officer Standards and Training of the State of California.

Training

Four recruit classes were conducted for one hundred and eleven San Francisco Police Officers and fourteen members of other law enforcement agencies. These courses are approved by the California Commission on Peace Officer Standards and Training and are of twelve weeks in duration.

In addition, an Advanced Officer Training course (approved by the Commission on Peace Officer Standards and Training) was instituted. To the year's end nine of these forty-hour courses have offered vital in-service training to three hundred and thirty veteran patrolmen of this department.

The training program for the San Francisco Reserve Police and San Francisco Special Police (approved by the San Francisco Board of Education) presented three 13-week (fifty-two hours) courses which resulted in sixty-six men being awarded with certificates of completion.

Classes in Physical Fitness and Unarmed Self-Defense, and Baton Training were conducted for the Recruits, Tactical Unit, members of the Bureau of Inspectors, and District Stations. This was also made available to San Quentin, Monterey Police Department, Campbell Police Department, Western Addition Security, California State Police, Berkeley Police Department, 30th Military Police Battalion, Presidio, San Francisco, Federal Police, San Francisco. A training manual and a film on the 36 inch baton were produced for use by this department.

Personnel Complaints

Complaints against personnel of this department assigned to this Bureau for investigation by the Chief of Police were investigated.

Liaison with City College of San Francisco

Each member of the recruit class was registered at City College while in the Police Academy and receives six college units of credit at City College in Criminology at the completion of their basic training.

Veterans Benefits

Eighty-two members received through this department training benefits from the Veterans Administration, ranging from \$100 per month to \$40 per month, while receiving training.

Equipment—Bell Helicopter—Model 47G-5

The helicopter manned by police personnel, has responded to over 250 radio calls, both a a serious and minor nature. The helicopter has, through direct observation, aided in the apprehension of suspects after fleeing the scene of the crime. Recovery of vehicles in areas formerly inaccessible to patrol vehicles, has been facilitated by helicopter patrol.

The helicopter has proven valuable when used in conjunction with Fire Department personnel during rescue operations on the coastal areas of the City and also the observation of fires prior to normal alarms.

The helicopter has proven its effectiveness during disturbances, such as San Francisco State College as it can detect crowd movements quickly and can respond to suspected trouble areas faster than ground units thereby saving the supervisory personnel delays in making tactical decisions.

The helicopter has been utilized by the Traffic Bureau with success during peak traffic hours to insure a safe and orderly flow of vehicular traffic. This also includes a patrol of known "drag racing" areas on week-ends.

Photographs taken for the District Attorney's Office and various bureaus of the Police Department have proven valuable and have given those offices a dimension of crime scenes never before known.

The helicopter offers supervisory personnel observation capabilities of an unlimited nature. The savings in time and overall police effectiveness during large operations, regardless of the nature, has been increased ten-fold.

The major advantage of helicopters is—response time. The vehicle can cover any area of the City in a matter of minutes offering surveillance capabilities never before able to be covered.

SUMMARY OF ACTIVITY — 1969

Pistol Range

The Police Range was closed for the period of January 1, to March 23rd, except for training of recruit classes, while the Range Personnel was detailed to San Francisco State College. The Range was also closed during the month of May and the Range Personnel detailed to Crime Prevention. The Range was also closed from June 25, 1969 to September 15, 1969 to allow the Range Personnel to make drastic structural changes at the Police Range for the conversion into defensive type of firing. The Pistol Range was again closed during the week of October 19 through October 26, 1969 because of the Lucky International Golf Tournament. During this period, the shotgun course in the rear of the Pistol Range was constructed by the Personnel.

- 1) Maintained a current and up-to-date file on the firing qualifications of all police officers, auxiliary police reserve and special police.
- 2) During the limited time that we were in operation we administered and executed a safe and complete firearm, training qualification and practice firing program for the San Francisco Police Department, Federal, State, County and Municipal Law Enforcement Agencies, United States, Armed Forces, Corporation Guards, Civilians, and Civilian Organizations, San Francisco Junior College and the conducting of three 5-day recruit training classes.
- 3) Cleaned and serviced the shotguns, machine guns and rifles maintained at each of the Police Stations, the Hall of Justice and the Traffic Bureau, once each month.
- 4) An overall picture of Range activities for the year 1969 is submitted in outline form as follows:
The following indicates the total number of times registered shooters used the Range facilities under the control and direction of the Range Staff for firearm instruction, training, qualification, practice firing and match competition during the limited time we were in operation in 1969.

- 3) In October the "IN-SERVICE" training program was instigated throughout the department. These classes were assigned to the Range each Wednesday and Thursday from 1:00 PM to 5:00 PM each week for the remainder of the year. Each participant was given training in the new defensive firing course, shotgun training, using the new shot gun range and training in the use of tear gas grenades, projectiles, gas masks, and culminating with a walk through the gas chamber for which the tunnel to the rear of the Range was closed off and used.

SUMMARY OF ACTIVITY – 1969

School Safety Patrol

This Detail operated in a staff position under the Director of Traffic and is composed of an Inspector and three Patrolmen. The scope of activities and responsibilities charged to this Detail are broad and varied. A summary of the major activities of this Detail follows:

LIAISON: This Detail acted in a liaison capacity with groups and organizations interested in traffic problems and traffic safety such as Safety Councils, Automobile Clubs, Safety Engineers, Board of Education, School Administrators (public, parochial, and private), City Traffic Engineer, Religious groups, Children's organizations (Boy & Girl Scouts, etc.), P.T.A.'s, Mothers' Clubs, Service Clubs, etc.

SCHOOL SAFETY PATROLS: This Detail was responsible for the organization, training, and supervision of student Safety Patrols in the San Francisco public, parochial, and private schools. Safety Patrols were established in all elementary schools with a fifth grade or higher and in the junior high schools. The Patrol units operated under the prescribed rules and regulations established in the California State Education Code.

The Patrol units were assembled and trained twice during this school year, at the beginning of both the spring and fall terms. A regularly scheduled monthly meeting of thirty minutes each for in-service training was given to each individual unit by a member of the Detail. Individual patrol units were inspected at least once each week while on crossing duty by a member of the Detail. In addition to the regular school sessions, 28 summer schools were operated. Patrol units were established in the summer session schools. The Patrols are co-sponsored by the Board of Education, the Police Department, the California State Automobile Association, the Second District Congress of Parents and Teachers, Mothers' Clubs, the San Francisco Archdiocesan Parochial School Department, and private school administrators.

The Annual Review of Patrol Units was held on Wednesday, May 22, 1969, at the Golden Gate Park Polo Field. The units were reviewed by the Deputy Chief of Police, the Superintendent of Public Schools, the Superintendent of the Archdiocesan Schools, the C.S.A.A., the N.S.C., P.T.A., Mothers' Clubs, police officials of other Bay Area departments, and other civic dignitaries. An estimated crowd of 10,000 persons attended this event. The Chief of Police presented Efficiency Awards to the patrol units. At a later date, sixteen schools were presented with "Outstanding" Awards by members of the Detail at special school assemblies honoring the Patrols. The awards were based on the performance of the units as observed by the members of this detail during the school year.

The activity and scope of this vital safety service is best illustrated by the following:

NOTE: No child traffic fatality has occurred at any intersection guarded by a School Safety Patrol since the inception of the Patrols in San Francisco 46 years ago.

SCHOOL SAFETY CONTROLS: The members of this Detail made continuous surveys in the vicinity of schools and at other points where children crossed going to and from schools and made recommendations to the proper agencies regarding matters which contributed to the safeguarding of the children. Prescribed "safest routes to school" were established and presented to the school authorities, parents, and children. Semi-annual surveys of all school crosswalks were made by the Detail and repainting as required was requested through the City Traffic Engineer. The establishment of new and additional crosswalks where needed was also requested through the latter.

ADULT SCHOOL CROSSING GUARDS: This Detail was assigned the task of hiring, training, supervising, and maintaining the time rolls of Adult Crossing Guards. The Chief of Police succeeded in obtaining funds in the Police Budget for a total authorized strength of seventy (70) guards. Instruction was given at the crossing to which the guards were assigned. All police officers were released of regular duties at school crossings and are now called upon only in cases of emergency. This problem has been enthusiastically accepted by the schools, parents, children, and the general public.

SCHOOL SAFETY EDUCATION: Assembled student body meetings of junior high schools and the upper grades of elementary schools were addressed on traffic safety. Individual classes of nursery schools and the primary grades of elementary schools were visited once each semester and talks were given on the duties of police officers as well as traffic safety.

Through the courtesy of the Visual Aid Department of the Board of Education, two appropriate safety films were loaned to this Detail to supplement their film library. A miniature working model of a traffic signal was used for this purpose. P.T.A. and Mothers' Clubs were attended and addressed on the subject of school-child safety as well as parental responsibility for traffic safety in the vicinity of schools.

BICYCLE SAFETY PROGRAM: A member of this Detail was assigned to a special Bicycle Safety Program. The program was made available to all schools and interested groups. The Detail participated and assisted in conducting Bicycle Safety Rodeos.

CHILD ACCIDENT INFORMATION: This Detail made special studies of all traffic accidents involving school children. These traffic accidents were listed on special forms indicating the school the child attended. It was then possible to direct the safety activities of this Detail to those schools and parents where the need was greatest. School administrators were supplied this information within a few days after the accident occurred to a child attending their school. This information was brought to the attention of parents of P.T.A. and Parents' Club meetings.

A study of Child Accident Reports from January 1, 1969, through December 31, 1969, was made relative to sex, minor or major accidents, day of week, hour of day, and the principal causes, which revealed the following information.

FATAL ACCIDENTS

There was a total of 8 fatal accidents involving children. Five of these accidents were due to child carelessness; 4 ran into the street, 1 was crossing the street against the signal.

Operators of vehicles were responsible for 3 fatal accidents: 1 for violation of pedestrian right of way, 1 went through the red light, 1 struck a pedestrian while on the sidewalk.

PUBLIC RELATIONS: In addition to the regular visits to schools for traffic safety purposes, members of this Detail attended graduation ceremonies and, on behalf of the Chief of Police, presented certificates to School Safety Patrol members who had faithfully performed their duties. The Detail assisted and advised administrators and teachers on other police problems including kite flying, proper conduct on Halloween, litter control, etc. Talks were given to students on the aforementioned problems. The Detail answered numerous telephone and personal inquiries from the public and other departments concerning school safety information. Letters directed through the office of the Chief of Police concerning school or child traffic safety were investigated and answered on behalf of the Chief of Police and the Director of Traffic.

FALSE FIRE ALARMS: This Detail continued the false fire alarm program initiated at the request of the Fire Department. The members of the Detail included the subject of false fire alarms in all their safety talks at the schools. They checked the alarm boxes in the vicinity of schools and replaced any glass found to be broken.

TOURS OF THE HALL OF JUSTICE: This Detail has been given the responsibility of conducting tours of the Hall of Justice for groups composed of school age children. There were 31 such tours conducted the past year.

PRESS, RADIO, AND TELEVISION: Press releases were prepared and distributed with the approval of the Chief of Police concerning timely traffic safety information relating particularly to parents and children. Members of the Detail participated in television programs that were especially prepared for viewing by children.

SPECIAL EVENTS: The members of this detail along with civic minded groups had three special days of fun for the School Safety Patrol members.

The first, as guests of the Giants Baseball Club at Candlestick Park, some 4,800 boys and girls attended this affair. The second, a day at the Presidio of San Francisco as guests of the Army of the United States Association. The boys and girls were treated to a parade, displays, lunch, and rides. There were about 3,500 at this affair. The third, Playland at the Beach had a special day which was also enjoyed by all who attended.

SUMMARY OF ACTIVITY — 1969

Traffic Information Services

A sergeant and two patrolmen comprise the Traffic Information Services Section, a staff unit of the Traffic Bureau. This Detail is primarily responsible for furnishing data concerning traffic to both the general public and the members of the police department. Such activity is directed toward the achievement of a better understanding by the public of traffic problems and the relationship of police traffic regulations to such problems. Information for department members is furnished to provide greater knowledge concerning regulations, policies, techniques, and devices to achieve a more effective police traffic operation. The following summarizes the major activities of this unit during 1969.

LIAISON:

Contacts were maintained with many groups interested in traffic problems to the mutual benefit of all concerned. A partial list of such groups are as follows: The Chamber of Commerce, Junior Chamber of Commerce, Armed Forces, Safety Council, automobile clubs, Board of Education, City Traffic Engineer, public utilities, parent groups, youth organizations, and others.

TRAFFIC INFORMATION SERVICES (continued)

BATEC:

The Director of Traffic attends all meetings of the Bay Area Traffic Executives Council (BATEC) accompanied by a member of this Detail. The coordination resulting from these meetings is aimed at a more uniform and effective supervision of traffic area-wise with its attendant benefits. Members of this Detail were Chairman and Secretary of BATEC for the fiscal year 1969-1970.

MOTOR VEHICLE LEGISLATION:

A member of this detail accompanied the Director of Traffic in attendance at all meetings of the Advisory Committee on Motor Vehicle Legislation in Sacramento. Research is done on proposed changes in the Vehicle Code. Those considered to be beneficial were supported and those believed detrimental were opposed. Suggested legislative changes by members of this department, together with arguments in their favor, were drafted for presentation to the Advisory Committee.

PUBLICITY:

Information concerning accident statistics, traffic problems, and traffic safety matters were furnished to all news services, newspapers, radio and television stations through news releases prepared by this detail. Members of this unit took part in discussion of traffic and related matters in radio and television programs. Tally boards showing current traffic fatality statistics compared with those of the previous year were maintained in Traffic Court, Traffic Bureau business office, and the office of the Director of Traffic.

JUVENILE DRIVER SAFETY:

High Schools — Members of this detail lectured Driver Education Classes in the public and parochial high schools. The approval and cooperation of the school authorities was given for such a program. Traffic laws were discussed and the correlation of violations and traffic accidents explained.

Driver Training Lectures	
Number of schools visited.....	21
Number of classes conducted.....	161

Hot Rod and Sports Car Clubs, etc. — Traffic safety programs were presented at meetings of Hot Rod, Sports Car, and Motorcycle Clubs. Several groups being organized were given assistance so that necessary requirements for traffic safety and compliance with traffic regulations would be incorporated in their constitutions and by-laws. Information and advice were given such groups on a continuing basis.

Juvenile Traffic Court— A member of this detail acted as court officer at all sessions of the Juvenile Traffic Court. When required, assistance and advice was given to court personnel. Copies of all necessary police reports were obtained by the court officer for use of the court. Notifications for the appearance of arresting officers and witnesses in protested matters were also made.

Juvenile Traffic Violator's School — With the cooperation of the Juvenile Traffic Court, the Juvenile Violator's School continued through the year, using training materials and a curriculum prepared by a member of this detail who conducted the classes. Instruction was given covering traffic laws, the relationship of violations to accidents, driver attitudes, etc. The goal is the improvement of driving habits and the development of a more mature attitude on the part of young drivers.

Classes were conducted from 7:00 p.m. to 9:00 p.m. each Monday evening (holidays excepted) at the Youth Guidance Center. Three two-hour classes comprise the course. Attendance is required of young violators when the Juvenile Court feels such training would be beneficial.

ADULT DRIVER SAFETY:

Adult Traffic Safety School — In cooperation with the Traffic Court and the Board of Education this activity was continued during the year. The four hour course at Abraham Lincoln High School was presented by members of this detail. The Traffic Court assigned violators to the school when it was felt that training will be helpful. Emphasis is placed on accident causes and statistics, traffic laws, and driver attitudes. In addition to violators, many volunteers attended and employees were often assigned by their companies. Visitors and volunteers are always welcome at the school.

Programs	36	22	10	44
Attendance	2,195	1,155	732	2,841

Lectures— Traffic safety lectures were given to various groups interested in traffic. Among such groups were college driver education and safety classes, Armed Forces, fleet operators and drivers, service clubs, religious groups, and senior citizens organizations.

DEPARTMENT TRAINING ACTIVITIES

Police Academy— Instruction was given by members of this detail to all recruit classes. Traffic laws, citation writing, traffic enforcement policies and techniques were discussed. They were tested in behind-the-wheel operation and certified to drive police department equipment.

Lesson Plans—Throughout the year "Lesson Plans" for the Roll-Call Training Program of the Traffic Bureau were prepared. Current problems and explanations of violations which commonly caused confusion were the subjects prepared for the information and guidance of Traffic Bureau personnel.

Department Traffic Intelligence — Suggestions and prepared drafts for General Orders concerning traffic matters of interest to the entire department were submitted Teletypes regarding holiday parking enforcement and other traffic matters were prepared for transmission.

Public Relations — Information concerning traffic matters was furnished by telephone to many individuals, groups, business organizations, other police departments, etc. Much correspondence seeking traffic data addressed to the department was answered over the name of the Chief of Police and the signature of the Director of Traffic. Visiting police officials, both domestic and foreign, interested in traffic procedures were assisted by this detail. Students of all grades studying traffic and safety were furnished data needed by them for preparing reports, term papers, and treatises.

SUMMARY OF ACTIVITY — 1969

Central Warrant Bureau

The number of Traffic Warrants increased during 1969. The number of warrants issued by the Municipal Court in 1969 was 15,128 warrants less than in 1968 (1968: 169,510; 1969: 154,382). But our total Traffic Warrant Inventory increased by 16,060. Most noticeable were the following:

1. Deactivation of 22,293 old Traffic Warrants to help complete full automation.
2. Decrease in the second half of 1969 warrant issuance of Parking Warrants: — 23,489;
3. Decrease in total warrant issuance of Moving Warrants: (30% by C.H.P.) — 7,763;
4. Increase in Moving Warrants cleared by Police in 1969: + 4,507.
5. 72% of Foreign Traffic Warrants (15,586) received for service are in P.I.N. Received in card form, directly from P.I.N. Center; no mailing in.
6. 81% of *served* San Francisco Warrants are cleared through P.I.N.
7. Amount of bail collected on Traffic Warrants increased: (from \$1,187,022.00 in 1968 to \$1,308,647.00 in 1969)

plus: \$121,625.

1969 was characterized mainly by: (1) *Progress*: Automation in the P.I.N. Program of all new warrants issued. In 1969 about 129,466 warrants were automated, of which 93,319 were cleared during the year. At the present time, the total number of warrants for 1969 and 1968 remaining unserved is 156,306. (2) *Progress*: Legislative amendment to Section 840, Penal Code of California, making time for service of misdemeanor warrants uniform throughout the State of California, thereby assisting in automation. (3) *Lack of Progress*: A further decrease in the field service force to 21% man-days in the field, compared to 1968. SEE TABLE. (Decline in man-days in field to warrants cleared by Police):

<u>Year</u>	<u>Warrants Issued</u>	<u>Cleared by Police</u>	<u>Man' Days in Field</u>
1965	178,000	118,000	3,907
1966	175,000	89,000	3,263
1967	163,613	85,309	2,152
1968	169,510	88,619	1,677
1969	154,382	92,162	1,006

Our participation in the P.I.N. Center costs about \$6,725.00 per month, and is more than paying for itself. Thirteen percent (13% of our warrants (11,587) served by the P.I.N. system are served by outside Agencies. This is an average of \$17,386 per month. It is estimated that the service of an additional 375 paid-up warrants per month will pay for the cost of our participation. Other advantages of P.I.N. are: Warrant information is readily available to Officers in the field on a 24-hour basis, and arrests are made with more certainty. More warrants are served in inter-Agency cooperation, as many offenders are wanted in several jurisdictions; and Police tasks are more coordinated.

The public is aware of automation, and is more inclined to post bail rather than risk being arrested on Warrant checks. Other crimes are cleared with greater degree of efficiency and less expense. Terminal teletypes relieve the workload for the State teletype system, and afford ready access to State and national Police information.

SUMMARY OF ACTIVITY — 1969

Community Relations

The year 1969 marked the 7th year of the Police-Community Relations Unit as an increasingly and vital part of the San Francisco Police Department. Listed below are but a few of the many accomplishments performed by the personnel of this unit.

1. Assisted in the organization of the Bayview Community College which teaches math, English, political science, consumer credit and other relevant subjects to the community;
2. Organized the Southeast San Francisco Industrial Basketball Conference along with other agencies and helped solicit \$4,000 to pay for insurance, uniforms, referees and athletic equipment;
3. Sponsored a fully paid trip to Marine World for students from a few of the local elementary schools;
4. Worked very closely with the Hunters Point Joint Housing Committee in assisting with relocation problems;
5. Made numerous presentations to high school civic classes, associations, fraternal organizations, etc. concerning the police department's functions in general and Police-Community Relations in particular;
6. Held over 100 Police-Community Relations meetings throughout the City to discuss and find solutions to neighborhood problems;
7. Assisted the Park and Recreation Department in sponsoring city-wide summer youth dances that attracted thousands of youngsters;
8. Five Police-Community Relations officers assigned to the War on Poverty Program (EOC) were responsible for assisting in the employment of several citizens; and also assisted in the many problems in reference to the public schools;
9. Sponsored four dances in different areas of San Francisco on New Year's Eve that were free for youth, thereby making it possible for them to have some place to go instead of merely wandering around the streets of the city;
10. Police-Community Relations officers initiated a pilot program on Fridays at the Youth Guidance Center designed primarily to bridge the gap and build a bridge of trust between youth who may have had negative contact with the police.

Police-Community Relation's involvement in community life was varied and meaningful during the year of 1969. The community asked for and received many services. This unit will continue to work and be responsive to the many concerns in our community.

SUMMARY OF ACTIVITY — 1969

Tactical Unit

A. Events Policed in the District

A total of 53 demonstrations were controlled.

Seven (7) days were spent in stand-by for possible disturbances in:

- a. various courts
- b. within the Hall of Justice
- c. City Hall

Seven (7) days assisting other details within the department

Foot patrol was supplied to Upper Grant Avenue for Company "A". A total of 25 men worked this detail.

Plain clothes supplied to Company "A" to cover Union Square and the Tenderloin during Christmas shopping. A total of 24 days; approximately 8 men per day; 266 persons arrested.

B. Special Services

A total of 53 days was spent at SAN FRANCISCO STATE COLLEGE

Three (3) days were spent in the City of BERKELEY during riotous conditions.

Members were detailed for 3 days to assist the BANK OF AMERICA move over \$6 billion dollars.

Three (3) funerals' details were completed. The average length of each detail was 1 day, (total: 3 days)

Three (3) days were spent on presidential details.

Rifle protection was supplied for 3 days during the visit of President NIXON.

C. Other Miscellaneous Details

38 speeches were made by members of the unit to outside agencies and service clubs.

565 man/hours spent in the training of other members of this Department.

In addition to the preceding information, a total of 1,703 persons were arrested on 3,688 charges while on routine patrol!

Weapons confiscated were combined in the statistics of the CPHC Unit.

The FIRE SQUAD while supplying protection to members of the S.F.F.D. responded to a total of 2,808 alarms.

Conclusion

The principal responsibility of this Unit is to prevent the outbreak of major disturbances of any nature, and to contain and properly police demonstrations. The year 1969 is of great significance; due to the fact that the City of SAN FRANCISCO was free of any major disturbance other than the SAN FRANCISCO STATE COLLEGE episode which was contained on the campus by proper and immediate police action.

Much of the credit for this success can be attributed to the professional and dedicated manner in which the TACTICAL UNIT performed its function.

SUMMARY OF ACTIVITY - 1969

Intelligence Unit

The primary purpose of the Intelligence Section is to gather, record, evaluate and exchange information on individuals, organizations and conditions found in San Francisco.

A secondary responsibility is that the Intelligence Unit is to establish liaison and rapport with all local, state and federal agencies concerning themselves with Intelligence information.

Information about organized crime, inter- and intrastate crime, and the movements of criminals has, also, been a concern of the Intelligence Section.

Intelligence information has been gathered throughout the year in the following areas:

- Civil Disturbances
- Demonstrations
- Dignitary Security
- Dissident Groups
- Labor Management
- Minority Groups
- Rallies
- Picket Lines
- Subversive Groups

The Intelligence Section has interchanged information with agencies of government and we have, also, interested ourselves in community organizations and special agents of the public utility companies.

During the past year a great deal of attention has been given to problems at San Francisco State College and related student activities.

Our Intelligence Unit has cooperated with many agencies dependent on Intelligence production. The work of the Intelligence Units within law enforcement bodies reached a high degree of efficiency during the past year.

SUMMARY OF ACTIVITY — 1969

Bureau of Identification

The following report reflects the activities of the Bureau of Identification. 1969, the busiest year to date in the ID Bureau, was also the year of the largest single mass arrest when 450 prisoners were arrested and processed as a result of the riots at S. F. State.

This year the prisoners' rap sheet was re-designed so it could be run through our Azograph Copier, thus saving as much as five minutes time that was formerly spent in typing up each new record. A new duty was assigned in July, 1969, when persons cited for criminal misdemeanors were processed through the ID Bureau. Of the 16 different types of work performed in the ID Bureau, a considerable increase was shown in 11 of those tasks over 1968 with a slight reduction in five.

The members of the ID Bureau, police and civilian, performed their duties exceedingly well.

SUMMARY OF ACTIVITY — 1969

Bureau of Special Services

Our responsibilities have concerned themselves with Gambling, Prostitution, Pornography and liquor law violations; plus the conditions in our City necessitating special investigative and diplomatic techniques as performed by our Chinatown Detail.

The Bureau of Special Services has maintained liaison with the Department of Alcoholic Beverage Control and in this capacity, and in addition to various matters concerning licensees and licensed premises, has accomplished the following:

Liquor License Applications Processed	757
Liquor License Applications Protested	24

The following is the total number of Vice Complaints received and investigated:

Prostitution.....	118
Gambling.....	82
TOTAL COMPLAINTS.....	200

The following is a run-down of vice arrests effected by the district stations and processed by the Bureau of Special Services:

Prostitution.....	1120

TOTAL STATION ARRESTS.....	2567

In addition to the above:

Bench Warrants re Prostitution & Gambling Received by B.S.S.	477
Body Attachments re Prostitution & Gambling Received by B.S.S.	4
Warrants of Arrest re Prostitution & Gambling Received by B.S.S.	8

In addition, a number of undercover investigations were conducted relative to Breakfast Clubs, Massage Parlors and activities within Chinatown.

It should be noted that eight (8) of the ten (10) officers assigned to the Prostitution Detail were assigned to the Crime Prevention Headquarters Company from the period May 6th through August 18th, and four (4) officers through November 2, 1969. Although handicapped with the loss of manpower, 545 additional arrests were effected by members of the Prostitution Detail over the previous year.

In the area of Pornography, the following is a breakdown of the number of arrests and type of establishments where arrests were made during the year 1969, either by this Detail or by Stations working in concert with this Detail.

San Francisco
Police
Department
Annual Report
Nineteen
Hundred and

A new chief, a new decade

2 From the beginning of this decade I promised the citizens of San Francisco that the Police Department will implement three primary goals: place more men and equipment on the street, increase the emphasis on youth programs, and improve community relations. I believe that this report will reveal the results of the first 12 months of this new decade. The outstanding job performed by the men of the San Francisco Police Department for the citizens of this community is only the beginning of what I feel to be a continual trend toward professionalization.

Traffic

6 San Francisco's unique geographical land use configuration, combined with an extremely high traffic density pattern, complicates the goal of reducing the City's 21,755 automobile accidents. The prodigious task of controlling the flow of over a quarter of a million commuter and local automobiles is the assignment of the Traffic Bureau. This unit is composed of highly

skilled officers trained in accident investigation and enforcement, augmented with non-police parking controlmen and traffic direction personnel. The Bureau's investigation of 4,921 injuries and 93 deaths resulting from traffic accidents would seem to be a sufficient task for any single unit; in addition, a select team of enthusiastic motorcycle officers, working in

pairs, comb the streets looking for criminals riding in stolen autos that would inevitably be used to perpetrate other crimes. This anti-auto theft program has resulted in the department receiving a national award for the Traffic Bureau's significant contribution to the reduction of auto thefts and other major crimes.

Planning and Research

Planning and Research, the hub of police administration, is responsible for a multitude of diverse tasks—from preparing and implementing a \$32 million operating budget to evaluating the merits of a bullet-proof vest; from writing a grant proposal for a \$1 million computerized information system to buying ten cent pencils. Currently, the staff is actively participating in the \$526 million federal grant program administered by the Law Enforcement Assistance Administration.

Juvenile

The San Francisco Police Juvenile Bureau, in response to a disproportionate number of our young population becoming involved in crime, has implemented a successful youth program. Special youth officers, trained to communicate with the young, are visiting thousands of school-aged youths in their classrooms. The officers engage the students in candid discussions pertaining to the whys and ways of crime. A special adjunct to this youth program, created by Chief Nelder, is the Drug

Abuse Program designed to reduce the increasing demand for illegal drugs. To accomplish this, an ex-addict and a police inspector with 12 years' experience in narcotic enforcement have teamed up to present a factual soft-sell approach to discourage drug abuse. The results, according to one youngster: "I'll never take any of those things." A more tuneful approach to the juvenile problem is taken by the "Electric Blues," a police combo, provided for special youth programs.

Narcotics

The San Francisco Police Department's Narcotic Bureau, confronted with an increasing flow of illegal drug traffic, has been successfully confiscating large caches of illegal drugs. This has been achieved through the close coordination and effective use of police intelligence and undercover agents. The main thrust of our narcotic drug war is aimed at creating improved barriers to the traffic, destroying the supplier, and reducing the demand.

The San Francisco Police Department Intelligence Unit and the Narcotics Bureau are pursuing an objective to obtain federal aid through the Law Enforcement Assistance Administration (LEAA) to establish and operate a regional multi-agency information center. This center would provide for the pooling and sharing of information on principals involved in illegal drug traffic and other organized crime activities. This center would coordinate closely with statewide and national centers for improved prevention and enforcement operations.

Community Relations

12

San Francisco's diverse cultural and ethnically rich character requires the police officer to possess a great deal of empathy and understanding. The notion of melding ethnic characteristics has subsided and is being replaced with acceptance of cultural differences. The transition has not been without problems; with the valuable assistance of the Police Community Relations Bureau, the department has created a milestone in understanding and meaningful rapport between citizen and police officer.

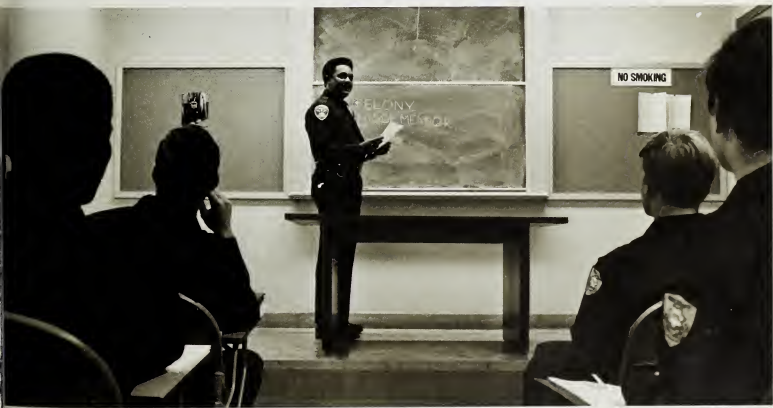

The diverse talents of the Community Relations Bureau have helped by fostering the development of "store front" operation centers located in critically sensitive neighborhoods; organizing youth oriented summer programs for the underprivileged; job placement counseling for ex-criminals; Chinese and Spanish language classes for police officers, and many other exciting programs aimed at expanding understanding between the San Francisco Police Department and the citizens it serves.

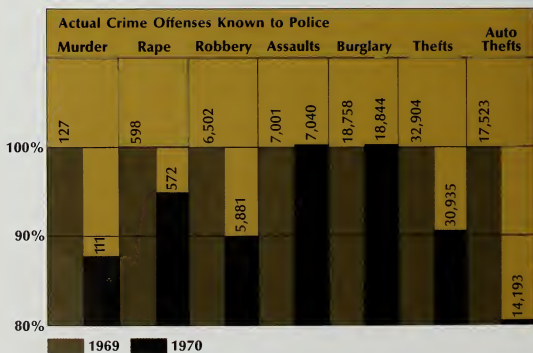

Training

Officers initially receive 650 hours of classroom instruction and training prior to working on the street. This initial training is followed by a "roll call" instruction program that is part of every patrol officer's daily assignment. In addition, forty hours of refresher courses are given every three years in order to encourage the continual study program of every San Francisco police officer and to comply with a state-wide law enforcement education program.

Dear Mayor Alioto:

Pursuant to the provisions of Section 19 of the Charter of the City and County of San Francisco, we submit herewith the Annual Report of the San Francisco Police Department for the calendar year 1971.

We are pleased to report that significant advances in crime prevention tactics were initiated by Chief of Police Donald M. Scott during 1971, which have proven successful and which will be expanded during 1972.

We wish to commend Chief Scott and the members of the Police Department for their efforts in making San Francisco a safer and better place in which to work and live. We know they will continue their efforts and that 1972 will show a dramatic decrease in major crime in our city.

Respectfully submitted,

Honorable Police Commissioners
Rm. 505
Hall of Justice
San Francisco, Ca.

Gentlemen:

The San Francisco Police Department has accepted the challenge of crime in a free society. The men and women of our department, under the capable direction and control of their unit commanders, have faced the challenge with unprecedented vigor and imagination.

In order to deal successfully with the fight against crime in San Francisco a professionally oriented and cooperative Department, staffed by highly trained and expert personnel, is necessary. I believe we have the personnel and program to fit these needs.

We are grateful to Mayor Joseph Alioto, the members of the Police Commission, and other dedicated City officials who have rendered invaluable assistance to this Department in its efforts to achieve the goals set forth for 1971.

Respectfully submitted,

Donald M. Scott

ACTUAL CRIME OFFENSES KNOWN TO POLICE

PATROL

The Patrol Force, operating with a complement of 1128 men, is the community's first line of defense against crime. This unit makes 68% of the Department's total arrests. The ability of this unit to adjust its deployment pattern to fit the ever-changing crime situation is impressive. In addition to the customary black and white patrol car, officers utilize horses, dogs, and lightweight motorbikes to ferret out criminals in out-of-the-way places.

Some of the patrol officers are equipped with a small, portable, two-way Personalized Instantaneous Communications radio. P.I.C. radio messages are relayed to a satellite station which transmits to our radio room. This system gives the police officer the capability of instant communication with other patrol units and the Bureau of Criminal Information. We believe this new system has been partially responsible for the reduction of major crimes.

BUREAU OF CRIMINAL INFORMATION

The Bureau of Criminal Information's communication center handles the P.I.C. system, dispatches radio cars, and monitors numerous robbery and burglar alarms.

The Bureau of Criminal Information also includes the Identification Section, the Record Section, and the Warrant Section.

The Warrant Section is the central depository for more than a quarter of a million traffic and criminal warrants. This 31-man unit cleared over 200,000 warrants of arrest, and drove over 76,000 miles to make 1,357 prisoner pick-ups in outside jurisdictions.

The Identification and the Record Section processed over a million segments of criminal information, answered 1.4 million information requests, and handled over 400,000 fingerprints.

Each of the Bureau of Criminal Information sections is either in the process of developing a computer system or actually utilizing one to facilitate rapid responses for our police units.

BUREAU OF INSPECTORS

The 295 men assigned to the Inspectors Bureau had the painstaking job of investigating some 45,000 cases last year. Criminal investigation requires that the investigator develop his ability to successfully glean information from witnesses and suspects during the course of a case. Simultaneously, the investigator must be alert to the discovery of physical evidence at the scene of a crime.

Ultimately, the investigator's work will be scrutinized in the courtroom.

The Bureau, in an endeavor to adopt new prevention techniques, has trained additional patrol officers, under a California Council on Criminal Justice grant, to abate burglaries. This pilot program, guided by sophisticated data gathering techniques, is aimed at reducing the high rate of burglaries in the Mission District.

CRIME LABORATORY

Five percent of all criminal investigative work is handled by the criminalist and his laboratory assistants. The criminalist analyzes physical evidence gathered from crime scenes. A minute particle of paint, a smear of blood, seminal stains, or a footprint can yield a great deal of information after the analyst has evaluated them.

Our Crime Laboratory, utilizing a myriad of analysis equipment, processed over 42,000 pieces of evidence in the past year. Drug seizures alone yielded 5,761 grams of heroin and 266,149 grams of marijuana, as well as numerous dangerous drugs.

In addition to the lab work, the criminalist and his staff were called to testify as expert witnesses in 746 court cases.

Our Crime Laboratory has progressed considerably from the days of Sherlock Holmes. Infrared spectrophotometer, gas liquid chromatograph, x-ray equipment, and continuing research into new laboratory procedures are some of the changes that have taken place during the year.

COMMUNITY RELATIONS

The diversity of ethnic groups which make up 29.6% of our city's population requires that police officers be very tactful and understanding in their enforcement of the law. Cooperation and understanding between citizen and police is a "must" for a successful peace-keeping mission. This Department's 16-man Community Relations Unit helps to promote good understanding.

Over a period of years, our Community Relations Unit has been successful. Their success may be credited to their work with young minority adults and with Department-sponsored field outings and summer activities.

JUVENILE

The Juvenile Bureau, which investigates all crimes involving juveniles, endeavors to prevent juvenile delinquency before it begins. It is involved in various youth-oriented police programs. Police officers visited more than 64,598 youths in their classrooms as part of a youth program. Students engaged officers in candid discussions about police work, crime, drugs, marijuana, riots, and other sociological subjects. The youths tried on police hats, examined handcuffs, talked on police radios, had lunch with officers, and in general got acquainted with the policemen.

In addition to the youth program, the Police Activities League sponsors more than 7,000 boys and girls who participate in organized competitive sports and other youths enrolled in the Police Law Enforcement Cadet Training classes.

The Juvenile Bureau is keenly aware of the importance of mutual understanding between the youth and the police. Our Department feels that the efforts expended with today's juveniles will help to improve the society of tomorrow.

TRAFFIC

On any working day, more than 250,000 autos and trucks bring in commuters and commerce to this city. The responsibility of maintaining an orderly flow of motor and foot traffic within San Francisco is the prime responsibility of the Traffic Bureau.

Skilled officers, trained in accident investigation and traffic enforcement, responded to 22,973 traffic accidents during 1971. Last year, 86 traffic deaths and the arrest of 929 drunk drivers added to the grim statistics of this city's driving record. The Department, in an endeavor to encourage better driving, issued 123,993 citations for moving violations. An additional 1,187,605 citations were issued for parking infractions.

ROBBERY

Robbery, theft of property from a person by force or fear, represents 14% of the major crimes committed in San Francisco. Sixty percent of the 6,584 robberies perpetrated in our city were committed on the street.

The terrifying experience of a victim confronted by a robber holding a weapon almost always brings public notice.

The Patrol Force and the Robbery Detail, utilizing undercover cars, stake-outs and policemen dressed in disguise on special robbery assignment are but a few approaches used by this Department to make the public streets a safer place.

TRAINING

Continual training is one key to effective policework. Each officer initially receives over 650 hours of classroom instruction, which is followed up with daily roll call training.

Our use of pre-recorded video tapes adds a new dimension to police training. Technical police subjects, produced by the Department, are viewed on closed circuit television. As a result, all officers are receiving consistently good instruction in police science courses.

IN MEMORIAM

It is sometimes very difficult to understand the cry of police brutality when you can still hear the crying of a child whose father will never return from his patrol duties. Three of our officers were shot to death last year defending justice.
